Artificial Test Soil and Blood Test Soil Expiration Dates

Dear Valued Customer,

This letter serves as a formal notification that Healthmark Industries is in the process of making a change in the shelf-life of ATS2015, ATS2015-Bone, ATS, BTS, BTS-Bone test soils.

Due to the current supply chain challenges, we are unable to procure components with a long enough expiration date to support the current 18 months shelf life of tests soils. Keeping this in mind, we will be changing the shelf life of the above-mentioned test soils to 12 months from the date of manufacturing.

The changeover to the new item number goes into effect for the test soils lots manufactured after 02/16/2023.

Healthmark Industries acknowledges the obligation to appropriately inform our customers of updates to products, as we do consider your need to prepare for inventory and product requirements in the coming months.

We value our relationship with you and look forward to your continued interest in our products. While we regret any inconvenience this announcement may cause, we are eager to supply your future product demands. If you have any questions or concerns, please contact Healthmark's Customer Service at 800-521-6224.
